

## Advance Notice Preparation: Abstract and PACUR Questions

Please refer to the following guidelines to provide the most complete information:

<b>Proposal Number:</b>	
<b>Abstract:</b>	<p><b>This abstract should briefly describe the purpose and goals of the proposed project and the approach or work plan; especially as it may or may not involve university collaboration. Please do not simply copy the proposal abstract into this section:</b></p> <p>-----</p> <p><b>For proposals that qualify for either 3a or 3b (as defined in the proposal justification section below):</b> <b>Please provide more detailed information on how the proposed project supports and complements the community and describe in detail the nature of the collaboration. The level and scope of the collaboration must be clearly stated and, when known, collaborators, graduate students, and post docs should be fully identified.</b></p>
<b>Justification of Proposal:</b>	<p><b>This section must be completed for any proposal that qualifies for PACUR review; this means any proposal requesting <math>\geq</math>\$100K with no university collaboration or any competitive proposal with an open solicitation from a funding agency requesting <math>\geq</math>\$100K.</b></p> <p>-----</p> <p><b>1. Mission Appropriate:</b> Explain how the proposal supports the research, facilities, education, and/or leadership objectives and strategic plans of the appropriate entity within UCAR (e.g., UCAR, NCAR, UOP, or E&amp;O).</p> <div data-bbox="451 1612 1432 1864" style="border: 1px solid black; height: 120px; width: 100%;"></div>

## Advance Notice Preparation: Abstract and PACUR Questions

**2. Fair Facility Use:** Identify which UCAR facilities will be used for the proposed activity: (check all that apply)

- High-Performance Computing
- Observational
- Research Data
- Community Models
- EOL Machine Shop
- None

**3. Collaboration Level:** Identify the collaboration type (Pick a, b, c, or d) and provide the requested explanation:

**a. Joint (e.g., separate proposal from UCAR and each university institution).** No further explanation needed provided the [abstract](#) is clear as to how it supports and complements the community.

**b. Collaborative with funding to or from university partner.** No further explanation is needed provided the [abstract](#) is clear as to how it supports and complements the community. [University collaborators and their roles should be identified in the abstract, as well as students and post docs, if known.](#)

**c. Collaborative with no funding to or from university partner.** Describe in detail the nature of the collaboration including letters of collaboration. The collaboration should be significant and meaningful. The level and scope of the collaboration must be clearly stated (including graduate student participation, if applicable) in both the Advance Notice Forms and in the letters of collaboration. In addition, it must be clearly stated how this collaboration is supportive of and complementary to the university PI.

**d. No university collaboration.** Explain how the proposed activity supports and complements the university community through: 1) contribution to the development or support of community facilities, community models, community data sets or other community projects such as field programs, workshops, visitor programs, or community meetings, or 2) development of transfer of UCAR-developed technology or expertise to
